

Dear Sir/Madam

My name is Levis Macharia Wainaina who has successfully secured a place in UNIVERSITY OF NAIROBI. I thank KUCCPS for the place.

I hereby apply for transfer from this institution because of several reasons as follows:

I come from a very humble background. I hereby wish to change to MASAI TECHNICAL TRAINING INSTITUTE because the fee in Nairobi University is high and also does not offer level 6 diploma therefore I cannot consider inter faculty transfer in the same institution. When I compare UNIVERSITY OF NAIROBI and MASAI TECHNICAL TRAINING INSTITUTE fees and other requirements, at least that of MASAI TECHNICAL TRAINING INSTITUTE my father and well-wishers can afford.

Secondly, I am passionate about engineering and I am already working in an engineering-based company (Daima Civil Engineering). Having been in the field of civil engineering, I highly idolize George Njuguna Kibe who is the (CEO) head civil engineer at Daima Civil Engineering

I am humbly requesting for this transfer and change of course to enable me study and pursue my passion in engineering.

I was placed by kuccps to pursue BACHELOR OF POLITICAL SCIENCE AND PUBLIC ADMINISTRATION which is not my dream and passion course, my career course is Civil engineering (level 6).

I am looking forward to a positive response.

Kind regards

Levis Macharia Wainaina
